Using AI in Diagnosis Means Scrutinizing Each Tool. Here's How.

A [CME series](#) featured on the [AMA Ed Hub](#)™ introduces learners to foundational principles in AI and machine learning, a subdomain of AI that enables computers to learn patterns and relationships from data without being explicitly programmed by people. Developed by the [AMA ChangeMedEd](#)

[initiative](#) and the University of Michigan DATA-MD team and geared toward medical students, it is also suitable for residents, fellows, practicing physicians and other health professionals. The third module in the series, "[The Use of AI in Diagnosis](#)," explores how AI-based diagnostic tools can complement physicians' diagnostic decision-making.

Negotiating Your Physician Employment Contract

No matter where you are in your career, negotiating your employment contract is key to maximizing your earnings and opportunities. It is important to consider the employment offer and prospective health care employer in totality, weighing both the positives and the negatives. [Read more.](#)
